26<sup>th</sup> December 2007

**DEAR MEMBERS,**

Recently, you would have received a lengthy letter from SUARA ANJING (Voice of dogs) which bore the signature of a fictitious CHAN WOW WOW. This letter is filled with lies, and libelous attacks on me and other MKA personnel. Clearly if there is any basis in these allegations, the writers would come out in the open and lodge a police report against the people mentioned in their letter. I am confident that our members are wise enough to see through these vicious individuals who clearly are trying to discredit the present committee so that they can take over the committee in the next elections.

Some members have asked me why these individuals are so keen to become committee members.

The reason is pure and simple. Under the present leadership, the MKA has become a prosperous club. Our assets include a three storey building valued at RM 2,000,000 (fullypaid), and cash of over RM700,000. in hand. When the time comes, these people who hope to get their hands on our money will be, exposed.

In the meantime, I am enclosing the official report of the MKA EGM held on 11th November 2007. This report gives a summary of what transpired at this meeting. Significantly it has clearly stated that every proxy received by the MKA was carefully checked for its validity and authenticity and there were 49 spoilt votes and the reasons why they were rejected are clearly stated. The report also states that the scrutineer did inform the members that if any one wanted to take the members file to the police station "then it should be with the approval of the committee"

Members please note that the scrutineer MISSED OUT PROVIDING THE complete information about the PROXIES. It is important for members to know the actual figures and breakdown which is as follows :-

- a) Total number of proxies received by the MKA = 1,431
- b) Total number checked and found to be valid and in order = 1,382
- c) Total number valid votes supporting the amendments = 1,291
- d) Total number of valid votes against = 91
- e) Total number of spoilt votes = 49

**Grand Total of  
Proxies received = 1,431**
